To Whom It May Concern:

This is to confirm that members of the Ethiopian Historic Conservation Council (EHCC) have been giving lessons on various topics to the students in our church's Sunday school once in a month since October 2008. This has been found to be very interesting and beneficial to the children. We would like to give our best recommendation to EHCC for the work they do with the children. If you should need additional information or have any questions, do not hesitate to contact us at the address given below.

Sincerely,

Dr. Tilahun Eneyew  
Chairman, Board of Trustees
